

## Event summary

Nam of the event: Seminar on “**Intellectual Property Rights (IPR)**”

Date: 14/02/2026

Time:10.30 am

Number of participants enrolled: 60

Venue: seminar hall

### Objectives:

1. To create awareness among students about the importance and relevance of Intellectual Property Rights in today’s knowledge-driven economy.
2. To educate participants on different forms of Intellectual Property such as patents, copyrights, trademarks, and designs, along with the procedures for registration and protection.
3. To motivate students and faculty to safeguard their innovations and creative works, and to promote respect for intellectual property in academic and professional environments.

### Summary:

The IPR Seminar was conducted on 12th February 2026 at the college premises. The session commenced with a welcome address by the Programme Coordinator, followed by an informative and engaging talk by the guest speaker, Mr. H. S. Nidagundi, Manager – Formulation R&D, Revinto Life Science Pvt. Ltd., Shirwad, Karwar, Karnataka.

The speaker highlighted the importance of Intellectual Property Rights in research, innovation, and industry. He explained various forms of IPR such as patents, trademarks, and copyrights, the procedures involved in obtaining protection, and the legal aspects related to safeguarding intellectual property. He also addressed common misconceptions regarding patent filing and ownership rights.

Students actively participated in the session and gained valuable insights into protecting their innovative ideas and creative works. The seminar concluded with a vote of thanks and an encouragement to all participants to respect and promote awareness about Intellectual Property Rights in academic and professional spheres.

**Outcome of the event:**

1. Students developed a better understanding of the importance of Intellectual Property Rights, including the procedures and legal frameworks involved in protecting intellectual property.
2. Common misconceptions and doubts related to patents, copyrights, trademarks, and ownership rights were clarified, fostering a more informed and responsible approach toward innovation and creativity.
3. Participants felt motivated to safeguard their original ideas and research work, and many expressed interest in learning more about filing and protecting their intellectual property in the future.
